In a unanimous 9 - 0 decision , the United States Supreme Court ruled that President Jerrod Kushner cannot be tried for poisoning former Presidents Trump and Pence .

Everything you know about Donald J. Trump is a lie. The ultimate in "fake news," the biographical backstory of the 45th President of the United States of America is complete and utter bunk. Here's the REAL story . . .

Back in 1945, as the Second World War came to an end in Europe with victory of the American and Russian forces over Nazi Germany, a secret program dubbed "Operation Paper Clip" sought to rescue Nazi scientists from the vengeful Russians and smuggle them to safety in the USA. Ultimately, the O.S.S. (precursor of today's CIA) were successful in patriating 15,000 fascist engineers and scientists to American soil, where they all became pillars in post-war American society, despite their various roles in orchestrating a world-wide holocaust that slaughtered 88 million human beings.
Meanwhile, Russia took twice as many German scientists into their Motherland, where they also were put to work, but not given the luxury or benefit of citizenship.

Friedrich Karlheinz Pfennig Trumpf was a mid-level manager at the German V-2 rocket production factory in Peenemunde. His job was to select workers from the Dora-Mittelbau concentration camp. Thousands of his slave-workers died because they were subjected to horrible, daily beatings and were expected to work without sufficient food. A vicious Jew-hating sadist and latent homosexual, Trumpf barely managed to elude rampaging Russian soldiers bent on revenge at war's end and turned himself in to American forces, who quickly determined that his c.v. qualified him for instant American citizenship.

Once safely on American soil, Friedrich Trumpf changed his name to Fred C. Trump and began building a massive real estate empire by murdering old Jews and stealing their deeds and land title documents. Like many homosexuals of that era, Fred was married to a woman so as to disguise his sexual orientation. One night, his sexually deprived and frustrated wife finally knocked him out cock-stiff, had her way with him and nine months later gave birth to a son named Donald J. Trump.

Meanwhile, back in Europe, a plan dubbed "Operation Redhouse" was quickly being put into action. Designed by the arch-fiend Heinrich Himmler when it became obvious that the Nazis would lose the war, it would be the way for them to infiltrate and usurp the financial world of post-WWII Europe. Then they would use that as their vehicle to establish a 4th Reich, otherwise known as "a United Europe." At the center of this bold operation was Deutsche Bank - the Bank of Germany.

Jealous that they could not have beaten Germany without the Russians help, Nazi sympathizers in America used the Marshall Plan to rebuild Europe as a cover to pump hundreds of millions of dollars into Deutsche Bank and its fascist overlords. Is it any wonder that they were the only bank in the world to touch Donald J. Trump with a ten foot pole by lending him however much money he asked for?

Today, the nazi plan for world domination is almost complete. The final component of their diabolical machination calls for their American puppet President to rouse America's substantial fascist minority and begin a race war that pits white people (and their mud puppets) against all people of color and to overthrow their democratic government. Heil Hitler, baby! Heil Trump!

Hi ! You don't know me , but I'm the other , other , *other* Bush - Neil. I found a loop-hole that allows communist Red China to pump millions of dollars into the coffers of the good ol' folks in the Republican Party . And once I finally get rid of that dolt Jeb , you'll be seeing a lot more of me .

Preserving the rights and freedoms of Americans is everybody's job. But there are those who would destroy this heritage of ours, who would tear down these ideals and trample us underfoot while waving around a flag pretending they are defending it. We are not fooled by such demagoguery and will not be intimidated in calling it out. Our freedom of thought and action demands that we all actively participate in it's preservation. We reject neo-fascism and must dump Trump in Election 2020.
